Claim #: 74-23-391119

CJ HESTER INC File #: 16G-0964

Insured: D &amp; D Express Transport Corp dba D &amp; D Transport

The following comments were included:

Kathi,

The claimant attorney has sent the attached e-mail requested we provide our insured unit for the purpose of downloading the ECM. We feel this would also be beneficial to our position to do so as our driver states he was travelling between 45 and 50 MPH. We would want our own expert available for the download.

I have spoken to the insured and they have advised the rig does travel through Mobile which would allow for the download.

Please advise if you wish to comply. We have to be concerned about spoliation claim since we have been placed on notice if we do not agree. Again, I do think it could be a positive for our position and establishing the percentage of comparative negligence we face. We await your response.
